

Group Number: WD11	
Entry No: 1	
Date : 01/03/2024	
Work achieved	<ul style="list-style-type: none"> • We provide a detailed project charter with our tasks and dependencies. • We defined the project scope and our target objectives. • We created a GANTT chart and divides the roles and responsibilities among the team members. • We documented a project proposal regarding the Methodology and project details. • Our planning and initiation in the agile methodology is completed within the past 2 weeks
Problems encountered	<ul style="list-style-type: none"> • Even though the GANTT chart has the schedule perfectly stated , we weren't able to perfectly follow that , some tasks took more time than showed on the chart.
Work planned for next week	<ul style="list-style-type: none"> • UI/UX designing and creating prototypes and wireframes for our POS System. • Planning on the database architecture and design • Discuss technical specifications and understand opinions of team members to proceed with the designing
